Vision Xtra

"...First class beverage solutions..."

The stylish Vision Xtra range of table top beverage systems offers the perfect 'front of house' solution for restaurants, hotels, bars and offices. The two models available provide customers with a comprehensive drinks choice of either 9 or 11 selections.

Outstanding build quality and proven reliability are inherent in Vision Xtra beverage systems and when combined with quality ingredients, good service and filtered water, they provide high quality drinks, satisfied customers and increased profits.

Key Vision Xtra features:

- Drink selection flexibility guarantees a wide choice of quality hot beverages
- Simple, user friendly single button drink selection
- Optimised drink presentation through whipping time control
- High speed dispense - black coffee in 3 seconds
- Jug facility eliminates the need for separate beverage facilities
- Class leading design and functionality
- Quick and simple to clean and replenish
- Choice of boiler elements - single, double or triple
- Stylish machine with small footprint and backlit display panel
- Microprocessor control for reliability and flexibility
- Full audit analysis - resettable and non-resettable
- Free vend or choice of payment systems
- Optional base cabinets available

Base Cabinets

The compact footprint of the Vision Xtra range makes the machine ideally suited to sit on a work top in a hotel, bar or office. However, for sites where no counter top is available an optional base cabinet can be provided which is perfect for providing storage space for ingredients. Base cabinets are available in various sizes to accommodate the machines with and without a condiment stand or payment module.

Condiment Unit

The Vision Xtra machines can be matched with a custom designed condiment unit to offer a complete front of house solution.

The unit features two cup dispensers with a total capacity of approximately 135 cups.

Branding Opportunities

Offering branded products provides strong point-of-sale impact as well as customer recognition and reassurance that keeps them coming back for more. Vision Xtra machines provide the perfect platform to attract these increased sales which in turn lead to increased profits!

Large backlit graphic areas as well as the drink selection decals, provide ample branding opportunities, increasing customer confidence and promoting sales.

Drinks Menu

Freshly made beverages at the touch of a button.

Coffee	Black coffee. A long smooth medium strength beverage suitable for all day drinking.	Café-au-Lait	A long smooth coffee beverage made with milk.
Tea	A delicious cup of tea, freshly prepared.	Espresso	An intense, aromatic short coffee traditionally enjoyed with sugar. Not for the faint hearted!
Cappuccino	Rich aromatic espresso combined with hot milk and a foamed head.	Doppio Espresso	A double 'hit' of rich intense dark aromatic coffee. For true espresso lovers.
Chocolate	A full cup of freshly whipped hot chocolate.	Caffe Latte	A long mild milky drink made with a hint of coffee.
Caffe Mocha	A full cup of indulgent coffee, chocolate and milk with a foamed milk head.	Hot Water	A portion controlled hot water selection.

Class Leading Design and Functionality

The Vision Xtra range of beverage systems provide the perfect solution for offering you and your customers quality hot beverages. A quality drink is the result of four vital elements - equipment, ingredients, service and water. Vision Xtra machines are designed to consistently produce drinks of the highest quality with benchmark reliability ensuring total satisfaction.

Advanced software developed for the Vision Xtra guarantees total drinks flexibility. Each of the selection buttons is configurable to any mix of ingredients from the canisters, developing any drinks combination to suit customers' needs, in a choice of cup, mug or jug size.

Further benefits such as ease of maintenance, self-diagnostics and high lifetime values are achieved through well-proven technology, innovative design and robust construction.

"...comprehensive drinks choice from machines offering either 9 or 11 selections..."

Coin and Card Module

For customers who require the additional versatility and control that coin and card systems can bring to their beverage installations, Vision Xtra machines can be supplied with a coin/card module.

The factory fitted module will accept most of the industry's leading coin or card systems.

Unrivalled Drinks Quality & Choice

The choice of drinks available from the Vision Xtra is unlimited, even drinks containing sugar can now be dispensed. Every selection button is configurable to any mix of the ingredient canisters, developing any drinks combination to suit customers' needs in a choice of cup, mug or jug size.

Optimised drinks presentation is achieved through control of the whipping time within the drink mixing cycle enhancing the drink quality even further.

Backlit Display Panel

Vision Xtra machines feature stunning backlit panel graphics which provide immediate visual appeal whilst helping to promote the use of the machine.

Bespoke graphics can be supplied as a build to order option further increasing the versatility of the machine.

Single Button Drink Selection

Simple, single button drink selection makes Vision Xtra machines ideal for self service locations and ensures that customers receive their chosen beverage quickly and to the highest quality.

Jug Facility

Crane Merchandising Systems offer a choice of two high capacity jug extensions for the Vision Xtra. The standard extension allows a 1.8 litre (3 pint) jug to be used, whilst a taller extension is available for use with most types of continental style jugs.

Standard machines can be configured to dispense a 2 cup jug serving, further enhancing the versatility of Vision Xtra machines.
