

B₂C

Vision

Bean to cup

The Stentorfield Vision B₂C (Bean to Cup) machine from Crane Merchandising Systems, combines the convenience of a fully automatic beverage machine with advanced espresso technology and soluble products. This combination provides today's discerning consumer with the superior taste that only freshly ground coffee can offer, along with espresso based speciality drinks. Incorporating the inherent aesthetics of the Vision range, the machine features a backlit graphics display area to maximise branding opportunities, visible fresh coffee bean container and a "positive feel" single button drink selection keypad.

Vision B₂C Features:

- 150 bean to cup capacity
- 5 - 15 grams ground coffee dispense
- Dual grinder, boiler and pump system ensures equipment down time is kept to a minimum in the event of component failure
- 1.4 kg. coffee bean capacity stored in visible container with lockable lid
- High capacity bean grounds container
- Consistent drink quality with every vend reduces the need for training and skilled operators
- Durable stainless steel construction
- Full drink audit facility
- Self clean function ensures hygiene standards are maintained between routine cleaning schedules

Nine drink options are available along with "press and hold" hot water.

<i>Espresso</i>	A rich intense dark aromatic short coffee, traditionally enjoyed with sugar. Not for the faint hearted.
<i>Cappuccino</i>	A mixture of rich aromatic espresso combined with hot milk and a foamed head. Ideally finished with a light dusting of chocolate powder.
<i>Americano</i>	Black Coffee. A smooth rounded long medium strength beverage suitable for all day drinking.
<i>Doppio Espresso</i>	A double "hit" of rich intense dark aromatic coffee. For true espresso lovers.
<i>Caffe Latte</i>	A long mild milky drink made with a hint of coffee.
<i>Chocolate</i>	A full cup of freshly whipped hot chocolate.
<i>Caffe Mocha</i>	A full cup of indulgent coffee, chocolate and milk with a foamed milk head. Ideally finished with a light dusting of chocolate powder.
<i>Chocomilk</i>	A mixture of freshly whipped hot chocolate blended with milk to produce a creamy chocolate drink.
<i>Hot Water</i>	A portion controlled hot water selection.
