## Market leading spiral merchandisers!

Both the **Focus** and the **Cascade** have been designed to meet the varying needs of today's busy vending environments, helping to provide a wide and varied range of chilled snacks, confectionery and canned drinks (Cascade only) at education, business, hospital and leisure sites.

Operators will love the simplicity of both machines which are available in two widths, allowing the perfect combination of machine size and capacity to be matched to a specific location.

The large, brightly lit "shop window" enhances the appeal of the products on offer, encouraging sales and increasing profits!

## Drop down shelves provide quick and easy shelf filling

Focus and Cascade machines are quick and simple to restock. Snack and confectionery trays pull out and tilt down 45° which ensures that even the highest shelf is within easy reach. The spirals gently but firmly support the products and smoothly move each item forward to the vend position.

The well proven, dual spiral vending system is reliable, easy to adjust and suitable for a wide variety of products. To facilitate the vending of larger sized confectionery items, spirals can be easily linked in pairs, further promoting the use of the machine.

## Choose a hunger busting snack or confectionery selection...

## ...along with your favourite ice cold canned drink!

The can module fitted to Cascade machines is loaded by simply rolling cans into position. It offers extra volume for more popular brands, encouraging sales and increasing profits.

Cascade machines offer either 8 can selections with a total capacity of 136 (330 ml) cans or a choice of 10 can selections from a huge 215 (330 ml) total can capacity.

## The Perfect Combination

Match Focus and Cascade with food, combination and drinks machines from the Crane Merchandising Systems range to create a total vending solution tailored to the needs of specific staff/customer preference or location.

## Why choose Focus/Cascade?

- Dual snack spirals provide superior vend action and allow snacks and confectionery to be stocked on the same shelf, maximising available space
- Removable selection dividers extend product choice and increase the versatility of the machine
- **SureVend™** guaranteed product delivery system fitted as standard
- Machines can help to provide a healthy vending option for schools, sports centres, canteens etc
- Programmable Time Events and Free Vend modes allow the machine to be configured to suit different operating environments
- Message display can be customised to display customer specific information

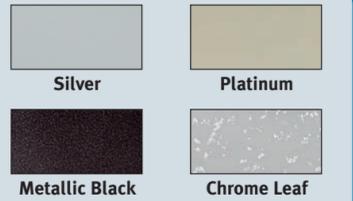

Designed for today's busy vending environments!

## Visual Style To Enhance Any Location

Focus and Cascade are available as standard in a choice of three paint colours plus Chrome Leaf finish to complement machines available from the Crane Merchandising Systems range.

When matched with Ultra Blue, Flame Red or Grey graphics, these machines provide visual and aesthetic impact to any location.

### Price Rolls

- Innovative price roll system allows for easy price changes
- Operator simply rolls the price strip until correct price is displayed

### Audit Information

- Audit system records sales information, aiding stock control and machine management
- Information can be viewed via the machine's display panel and printed using a hand-held printer

### Choice of Payment Systems

- Machines are compatible with the leading M.D.B. and Executive coin and cashless systems
- Either option can be fitted depending on the payment format required

### SureVend™ Guaranteed Product Delivery

The SureVend™ product delivery feature guarantees that selected items are delivered to the customer or their money is returned. The system works by attempting to deliver the product up to 3 times.

Optic sensors detect whether the selected item has been delivered; if a product is not dispensed after 3 attempted vends, the customer is given the option of selecting another product or accepting a refund.

## Snack, Confectionery & Can Merchandisers

snack & can  
vending has  
never been so  
focused
